You're interested in sponsoring the Cloud Native London meetup? Awesome! It's a great way to support the Kubernetes and cloud native community, and increase awareness amongst developers and DevOps engineers.

One-off sponsorship

Each sponsor contributes £600 (no VAT) per event, which covers catering and speaker costs. Each event is typically 200-300 attendees; see report for April 2019.

Your representative may do a 30 second introduction during the event, and I will include your company blurb in post-event emails to group members.

I'm happy to provide guidance if you wish to send a technical speaker.

Regular sponsorship

If you sponsor for six months or more, your company name and logo will be added at the bottom of https://www.meetup.com/Cloud-Native-London. You may also share special offers or run raffles with prior permission.

Regular sponsors receive a recurring invoice/payment confirmation on the 15th of each month.

Payment options

Direct debit (regular sponsors only), bank transfer or credit/debit card.

Next steps

If you would like to proceed or have questions, fill in this form and we'll get in touch.

Cheers,
Cheryl (cheryljhung@gmail.com)
